Vital Statistics for 1985

Published under the Authority of

The Honourable Monte Kwinter
Registrar General

THE HONOURABLE MONTE KWINTER

REGISTRAR GENERAL

Foreword

I take pleasure in presenting the 114th Vital Statistics Report compiled by the Office of the Registrar General. This report is prepared in two parts.

Part I consists of an analytical survey of the vital statistics of the Province in the form of summary tables. Its objectives are to indicate the trend over the past several years, to bring to light several major causes of death and to summarize vital statistical data for 1985.

Part II comprises detailed tables covering various aspects of vital statistics for the Province of Ontario in 1985.

In conclusion, may I state that, while this report is primarily of interest to certain professions and agencies, it will give other interested persons an insight into the vital statistics concerning births, deaths and marriages in the Province of Ontario.

Registrar General

SIR:

I have the honour to submit for your approval the One-hundred-and-fourteenth Vital Statistics Report made in conformity with and under the provisions of the Act respecting the Registration of Births, Marriages and Deaths in the Province of Ontario, for the year ending December 31st, 1985.

I have the honour to be, Sir,
Your obedient servant,

Despina H. Georgas

Deputy Registrar-General

TO THE HONOURABLE MONTE KWINTER
Registrar General of Ontario

PART II

Detailed Tables,

1985

The list of incorporated urban places shown for the year 1985 includes all places incorporated under provincial laws as cities, towns or villages, according to 1981 June 1 Census, and having 1,000 population or more at the time; it also includes changes in incorporation status, annexations, changes of name, etc. affected since the 1981 Census. Statistics are also given for certain other urbanized areas such as townships.

For changes in status see Appendix at end of report.

(3) Since December 15, 1961 stillbirths have been registered at 20 weeks gestation and over and since November 1973 have obtained a weight of 500 grams.

Notes: (1) These estimates by urban centre are based on Treasury and Economics' county population estimates distributed according to the geographic pattern obtained from the 1985 assessment enumerations conducted by the Ontario Ministry of Revenue. The latter, however, were adjusted to achieve comparability with 1981 census data. Thus, these estimates differ from the assessed population for a number of reasons: differences in boundaries, population universe and the method and timing of collecting information.

(2) Figures may not add to total due to rounding
